

St. Mary's River East Branch Salmon Pools

River Magic is a fly fishing and gift shop on Nova Scotia's St. Mary's River, a world famous Atlantic salmon fishing destination.

Fly shop specialties are quality products, services, and art for the fly fisher, fly tier, or collector, inspired by Nova Scotia's rich angling tradition. For example, the "Deadly MacIntosh" salmon dry fly was invented by guide Dan MacIntosh on the St. Mary's River. All of our flies are locally tied. No imports!

Services include fishing advice and equipment repair. We do custom work, workshops and demonstrations. Visiting anglers are welcome to use our facilities to tie their own flies.

Our gift shop features quality items we make in our shop and goods made by other local skilled crafters. Again, no imports!
